I am currently in my fourth year of Computer Engineering and eager to complete my on-the-job training (OJT). I have a strong passion for technology and computers, and I aim to apply my skills in graphic design, 3D modeling, and web development to address real-world challenges. I possess a basic foundation in computer networking, troubleshooting, and robotic hardware, and I am excited to tackle challenges that will promote my professional growth. I am highly motivated and seeking a career-oriented environment that encourages collaboration and continuous learning.

EXPERIENCE

Web Development
- A school group project, a client requested an online website for his new business. We created a responsive e-commerce website that includes an admin page and a user page. Then we uploaded the website to the internet.
- Designed a simple e-commerce cake website using HTML, CSS, and JavaScript on one of our school projects.

Graphic Design
- Created a logo, and edited a video project in our other school subject to make a good visual effect for the presentation that we conducted.
- Created a 3D model for our thesis proposal to represent our concept and enhance the presentation visually.
- I helped create a Social Media Poster, Webinar Banner, and Promotional Banner for the seminar we recently conducted at our school, ensuring the event went smoothly.

Mini Project
- Created a mini calculator and a mini-game using python.
- Created a simple device using Arduino and esp-32 that can detect the loud motor muffler and save it into Google Sheets.
- A computer simulation on packet tracer that connects all the networks inside the computer shop using different kinds of topology.

EDUCATIONAL BACKGROUND

2021 - Present — **Bachelor of Science in Computer Engineering**
Don Honorio Ventura State University

2019 – 2021 — **Senior Highschool**
Science, Technology, Engineering, Mathematics (STEM)
Sta. Cruz Academy of Lubao Inc.

2015 – 2019 — **Junior Highschool**
Sta. Cruz Academy of Lubao Inc.

2009 – 2015 — **Elementary School**
Sta. Cruz Elementary School

SKILLS

Web Development
HTML
CSS
Java Scipt

Graphic Design
3D Modeling
2D animation
Digital Artworks
Video Editing

Computer Networking
Cisco packet tracer

INTERESTS

Image & Video editing, digital art, travelling, reading manga, playing games, and badminton.
